Event Insight - Specialists in Event Photography Solutions

We are specialists in providing quality event photography with instant on-site photo printing at your event or venue often at no cost to the organiser.

Using the latest digital printing & wireless technology we have the ability to capture large numbers of images and print them almost instantly. Using our in-house designed system you can be assured that the job is professionally done.

A large amount of our work is in Central London but we cover the whole of the UK and Europe, with the majority of our teams based in Hampshire, Surrey, Hertfordshire, Oxfordshire and the Midlands.

The benefits of dealing with us:

- Instant digital printing of photos within seconds.
- Fully flexible solutions designed to your requirements.
- Team of over 100 experienced event photographers

throughout the UK.

- Events from 50 to over 5,000 people catered for throughout the world.
- Instant Response - often with only hours notice!
- Full range of photographic products available.
- True photographic quality images - using dye sublimation technology.
- Competitive pricing.
- Print only solution if you have your own photographers.
- Latest digital technology including wireless image transmission.

Our Experience

One of the largest events we have covered was the Brit Awards after show party, producing over 4,000 images in less than four hours.

We used a dozen wireless Nikon cameras, three Mitsubishi IT5000 systems connected to ten Mitsubishi CP950DW-S printers. This capability makes us ideal for parties,

product launches, promotions, corporate hospitality or any event where the WOW factor is needed!

We have covered a number of celebrity events at prestigious venues across London and the UK, where our professionalism and expertise was essential to the success of the event.

Event Insight is owned by System Insight, the UK's no. 1 event photography specialists who provide equipment, training and solutions to event photographers throughout the UK and Europe.

System Insight's experience and knowledge is unsurpassed within the industry. Members of the team are often relied upon by major manufacturers to speak at conferences and exhibitions on the subject of event photography. We have also given talks and seminars for Nikon and the SWPP.

Our 'Photobus'

The "PhotoBus" is currently the UK's largest specially

designed event photography vehicle on the road. The 29ft bus is furnished with sophisticated touch screen equipment that includes the very latest Mitsubishi photo processing equipment and bespoke software that allows customers to choose their own images prior to printing.

The PhotoBus is capable of producing up to 2,000 photos an hour and is totally self sufficient; it even has its own clean power system on board for operation anywhere.

Types of Events We Cover:

- Celebrity Dinners
- Charity Awards
- Corporate
- Black Tie
- Sporting Events

- Equestrian
- Proms/Balls
- Parties/Celebrations
- Themed Nights
- Seasonal
